DETAILS

The DP100™ Mailing System provides convenience and efficiency to small business operations. This compact unit handles daily, routine tasks for all mail types including letters, flats and parcels. The cutting-edge IntelliLink™ technology on the DP100™ makes this unit flexible, easy to use and more productive.

1. Save Valuable Time
Replenish your postage by modem 24/7 with a simple one touch Postage by Phone® reset.   The control panel has dedicated, labeled keys for fast processing of mail. Handles up to 3/8" thick media. Larger mail is processed quickly with self-adhesive tape strips.

2. Get the Best Rates
The integrated digital platform allows you to take advantage of a variety of USPS domestic rates and special services. Get precise postage every time with the built-in scale and integrated rating feature.

3. Sharp, Digital Printing
Digital meter indicia satisfies all current postal regulations. Crisp, inkjet printing provides unbroken imprints giving your mail a professional look.

4. Small Footprint Saves Space
Compact, innovative design fits into even the smallest offices.

5. **Communicate Your Message On the Envelope**
Personalize your outgoing mail with preloaded ads, endorsements and inscriptions. Put your logo on the envelope to promote your business.

6. Manage Expenses
Manage your metered mail costs with the DP100™. Allocate postage for up to 10 accounts with the option of 50 accounts. Full reporting print capability provides hard copy records of postage transactions.

7. Accurate, Automatic Date Setting
The internal clock automatically advances the date so your mail is always dated correctly. The time and date stamp can be used on incoming mail or on sensitive documents. Operators can advance the date to jump on processing tomorrow's mail.

8. Access to Vital Services
You can access a suite of services including postal rate updates and software upgrades. Track your mail using Delivery Confirmation.
