SECAP® DP200™

DIGITAL MAILING SYSTEMS

PRINTERS   TABBERS   FOLDERS AND INSERTERS   SOFTWARE   DIGITAL MAILING SYSTEMS

GET YOUR MAIL PROCESSING UP TO SPEED!

LESS TIME, LESS SPACE, WORKS GREAT!

The DP200™ Digital Mailing System gives you mail handling versatility and efficiency in a compact, quiet, and affordable system.
Stop Timely Post Office Trips
With a single key stroke you are able to reset your meter by modem. Download all the postage you need, 24/7, with our unique on-line electronic meter resetting system.

DIGITAL PERFORMANCE

Digital technology is the most advanced and efficient way to process metered mail by providing flexibility and security.
Accurately Accounts For Every Penny
Automatically track and report expenses for up to 25 accounts. Optional accounting feature is available for more advanced tracking and reporting needs. Full report printing capability provides hard-copy records of your postage transactions.
Digital Printing Looks More Professional
Crisp, inkjet printing gives you clean, unbroken imprints that are professional and creates openability of your mail.
Communicate Your Message With Mail
Print a variety of envelope advertisements and postal inscriptions.
Technology For Today and Tomorrow
The DP200™ is silent, compact and ready for the demands of today and tomorrow. With password protection, the DP200™ system is secure limiting access to authorized personnel.

PROCESSING MAIL IS AS EASY AS 1, 2, 3!

The digital technology of the DP200™ offers user-friendly prompts and instructions that make it extremely easy-to-operate, even for occasional operators.
Easy To Read Prompts
The easy to read display tells you everything from available postage to your ink level, or whether you are accidentally applying too much or too little postage. And, the digital memory keeps stored information so that you can access it for the next time you process that same run or transaction.
Don't Worry, It Remembers
The memory keys can be used to store your most common postage values and self diagnostics. Plus, an attached instructional guide is quick and easy to read making the DP200™ truly "user friendly".
Everything Is Up To Date
The internal clock automatically advances the date. What's more, operators can even advance the date when they want to get a jump on processing tomorrow's mail.

DETAILS - DP200™ DIGITAL MAILING SYSTEM

1. Handles a Wide Variety of Mail
Handles a variety of envelope sizes making quick work of daily mail neatly stacking finished envelopes. Processes up to 40 pieces per minute. Program up to 5 job presets.

2. Moistener
The in-line, integrated moistener quickly wets and securely seals your envelopes in one smooth motion.

3. Convenient Display, Easy to Read & Use
Large, easy to read display shows system status and prompts you through operations. Fully integrated controls guide the operator through each stage of processing mail. The DP200 has the capability to download logos and advertising slogans.

4. Full rating digital scale
Integrated weighing platform weighs mail while the integrated rating feature calculates the correct postage automatically. Its digital meter indicia satisfies all current postal regulations.

5. Fits Into Any Office
Whisper quiet operation. Its stylish design and small footprint will complement virtually any office setting. You can even refill the ink cartridges yourself adding to the DP200's exceptionally simple operation.

Extend Your Capabilities With A Digital Scale

Most businesses have to process oversized envelopes and small parcels. Our digital scales help you accurately apply the correct postage for these items.

Weighing Saves Money
Independent surveys suggest that precise, electronic weighing can save as much as 20% on postage.

Weighing Gets You The Best Rates
Choose the scale to meet your requirements such as USPS domestic rates, special services, USPS international and UPS rates and fees.

Interfaced System Stops Mistakes
Interfaced with the DP200™ system, our digital scale automatically sets the postage meter at the correct postage thereby eliminating any chance of manual keystroking errors.
