DETAILS

The DP300™ increases the speed, ease and productivity of mail processing. IntelliLink® technology simplifies mailing. Plus, you gain access to a suite of services that include downloadable features, Delivery Confirmation™, Signature Confirmation and electronic tracking of Certified Mail, ad graphics, and postal rate and software upgrades. Your system stays current and operates at maximum efficiency.

1. Fast, Efficient and Versatile

Processes up to 65 letters per minute. Feeds envelopes up to 3/8" thick. Seals envelopes tightly and secures your documents. Tracks your incoming mail using the time and date stamp.

2. Convenient and Productive Postage Features

Internal rating selects the most effective and economical postage rate. IntelliLink® technology allows postage rate changes to occur automatically. The internal clock advances the date automatically. Operators can advance the date to process tomorrow's mail. Postage can be replenished online, 24/7, to save valuable time. Track postal expenses for up to 50 accounts with an option to track up to 300 accounts. Tape adds speed by auto feeding up to 50 strips.

3. Integrated Weighing Option

Process oversized envelopes and small parcels. Enhance productivity and help reduce postage costs by applying accurate postage.

4. User Friendly Control Center

Learn to use the DP300™ in only minutes. It takes you through every processing step, with an expanded 7-line graphics display. Dedicated functions, labeled keys and a QWERTY keyboard for faster processing.

5. Digital Technology

The digital meter indicia satisfies all current postal regulations and the technology is flexible making the DP300™ adaptable for the future.

6. Advertise With Crisp Images

Transform your mail pieces into eye catching communications. Advertise your business on your mail to build your professional image. The DP300™ comes with 10 standard ads/endorsements and 10 standard postal inscriptions. Download additional ads and inscriptions via modem right into the control center.
